Research and Innovation opportunities for B.Tech / M.Tech Students (Young Researchers)

“Centre for Advanced Studies”(In-Campus Institution of Dr. A.P.J. Abdul Kalam Technical University) is a Research driven Institution whose objective is to promote state-of-art research and innovation. The Centre has state of art laboratories and is committed for high end research. Currently the center is offering M.Tech Programs, PhD Programs and also has DST funded projects in cutting edge technologies.

Research minded B.Tech / M.Tech Students who intends for Higher education / Career in R&D and has a strong liking for research activities can be considered to be part of some research groups in Centre for advanced studies in the following areas:

Machine learning, Deep learning, Computer vision, Image processing, Bio-medical engineering, Signal Processing, Audio signal processing etc. Students having knowledge in Python and experience in the above areas will be preferred.

The mode of association will not have any stringent rules and will be flexible in timings as per mutual convenience. The students can work beyond college hours and weekends / holidays / vacations in high value research projects.

Working in such research projects may result into good publications, patents, international collaborations and will lead good foundation for a R&D career.

Application with a Bio-Data are invited from the interested students which will be further shortlisted. Interested candidates can mail their application to: mkd@cas.res.in

Subject of the Email: Young Researcher Application.

It's a Rolling Advertisement and first round of screening will be done on 10 August 2019. Shortlisted candidates will be called for an interaction at Centre for Advanced Studies, AKTU and if found suitable will be involved in research projects.
